Newsletter 1 – May 24

VR4INCLUIVE in VET is a project, developed by 7 partners in 5 different European countries (Spain, Italy, Cyprus, Lithuania and Portugal), financed within the framework of Erasmus+ KA220-VET – Cooperation Partnerships in Vocational Education and Training. To publicize the potential offered by new technologies, especially virtual reality through the development of virtualized environments, tools or products focused on the technical teachings provided by the partners.

Objectives

- Implementation of work tools developed in educational and business environments.
- Give innovative tools to professionals.
- Improve skills and capabilities for digital transformation.
- Have a support platform for future professionals who wish to innovate and improve existing training resources.
